| 1 | 251.04(4)(a)2.b. Parent Notification - Medical Evaluation Needed Description: The facility staff did not notify the parents when their 2.5 year old child swallowed a small rock on 8/14/25. Child was picked up by parents and taken to the emergency room. | Parents were notified via a ProCare message along with other incidents from the morning. Parents did not notify the center they were going to take the child into the emergency room after normal pick-up time the day of the incident. Child was breathing, swallowing, and talking normal so parent notification was made timely via the app while transitioning inside from outside. In the future we will send a message separately as an incident and follow up with a call to parents if a child ingests or inserts an item into their body that is not emergent so there is no loss of communication. | 11/7/2025 |
