1 251.055(1)(a) <b>Supervision Of Children</b>  Description: Each child was not supervised by a child care worker who is within the sight and sound of the children to guide the children's behavior and activities when, on September 18, 2024, during a monitoring visit, a staff person was in the bathroom for several minutes assisting individual children with toileting while the rest of the group of children were in the kitchen area, which is not viewable from within the bathroom.	We switched our childrens tables so that our activity table is near our circle time area. By moving this table 10ft to the north it is in view for the staff to still have a full view of those children at the table as well as assisting a child in the bathroom. (Still allowing privacy to the child needing bathroming assistance)  Please find my attached photo of this view.		9/19/2024

2	251.06(11)(bm)3. <b>Outdoor Play Equipment - Construction, Condition</b>  Description: The tarp cover of the large climbing structure was not in good condition where it had deteriorated and shredded, presenting a hazard for children climbing in the area. The bottom of a pink slide, on the larger playground, had cracked horizontally across the bottom of the slide.	The tarp has been replaced and the pink slide has been removed and disposed. I will be doing a walk through and inspect the condition of our outside equipment/toys at the end of each month. I will dispose of the broken toys and fix the ones that can be fixed.	9/19/2024	
3	251.06(11)(bm)4. <b>Outdoor Play Equipment - Placement</b>  Description: Climbing structures under a shelter were placed too close together, and on the smaller playground, a slide was placed too close to the fence wherein children would collide with the fence at the bottom of the slide, and toys and other equipment were placed too close to the swings to avoid danger of injury or collision and to permit freedom of action.	All toys and climbing structures, including toys that were thrown under the swings prior to mowing have been moved back to the correct and safe location in the play-yard. Appropriate and safe spacing between structures, slides and other toys will be maintained and followed to avoid danger after lawn care is complete. Play yards will be picked up at the	9/19/2024	

closure of each night, in preparation for the next day to ensure safe play.
