1	250.06(2)(b) Access To Potentially Dangerous Items Description: During the monitoring visit, it was observed that the cabinet under the kitchen sink did not have the child safety lock locked, resulting in children potentially accessing power tools located in the cabinet.	I locked it that day. Now when I take something out I lock it right away. Then I do the same when I return the item. That has been working.	8/13/25
