1	251.06(11)(bm)3. **Outdoor Play Equipment - Construction, Condition** Description: Based on a complaint investigation it was determined the outdoor preschool climber has a bubble window that is cracked and and the climber floor has a crack, both items are fixed with duct tape. It was also determined that one of the 4 spots (orange) on the teeter totter seat has a large crack, the seat is fixed with duct tape. The licensing specialist advised that the climber or teeter totter not be used until it can be replaced. Repeat violation: Previously cited on 6/27/2025	The preschool bubble window was repaired with clear heavy tape, which we understood had been approved during a prior licensing visit. The climber floor crack was covered with red duct tape to match the climber. We ordered a new climber on May 12, 2026. A different teeter-totter seat broke after the prior citation on June 27, 2025. That seat was temporarily taped and has since been replaced. On July 13, 2026, we were advised that taped repairs were not acceptable and the affected equipment should not be used. We took the climber down on July 15, 2026.
