1	251.07(6)(f)1.a. Medication Administration - Parent Authorization Description: Several medication authorizations forms for a child dated 7/6/26 are incomplete; the form does not include an end date of the authorization. Repeat violation: Previously cited on 4/22/2026, 11/13/2025, 12/6/2024	Since those medications (all for same child) treats a chronic allergy, we initially assumed the doctor's note on file was sufficient for indefinite use without requiring an expiration date. We realize this was an error and have corrected it. Going forward, all medication authorizations will be fully completed with a clear timeline and end date. We will also work with parents to ensure they accurately record either the prescribed treatment plan timeline or the medication's expiration date.	08/24/26
2	251.07(6)(f)1.b. Medication Administration - Containers & Labelling Description: An inhaler, observed on the premise, is not properly labeled with the child's name, as the inhaler is not in its original container. Repeat violation: Previously cited on 4/22/2026, 11/13/2025, 12/6/2024	A student's inhaler was brought to school inside a bag labeled with the child's name. The medication lacked its original prescription packaging. Expiration date was on the inhaler and was accurate. The parents were previously instructed after the April 22, 2026 licensing visit to provide the original box featuring the pharmacy label. They stated they no longer have it. The family's insurance refused coverage for a replacement inhaler because the current device is not expired. Consequently, the unboxed inhaler was returned to the family. To resolve the impasse, the student's physician agreed to write a brand-new prescription specifically for school storage. For safety and compliance, a reminder notice was sent to all school	09/01/26

3	251.07(6)(f)5. Medication Administration - As Labeled & Authorized Description: Children's allergy medication observed on the premise for an enrolled child is expired. The medication expired May 2026. Repeat violation: Previously cited on 11/13/2025	The child to whom the medication belongs did not attend the summer camp session. The child's last day of attendance was June 12, with a scheduled return date for the upcoming new school year. During the licensing visit, administration was actively preparing for the new school year. This preparation included a comprehensive review of all student medications and medical authorizations to ensure full regulatory compliance. Upon the student's return for the new school year, we received both a updated medical authorization form and fresh medication from the family. To ensure ongoing compliance and prevent future retention of inactive medication, the facility has implemented the following policy: Effective immediately, all unused, remaining, or expired medications will be formally returned to families on the student's final day of attendance for the school year.	08/24/26
