1 251.06(11)(bm)2. <b>Outdoor Play Equipment - Developmental Level, Size</b>  Description: A child sustained a broken ankle on 4/8/25; the child was playing on climbing equipment which was not scaled to their developmental level, size or ability. The child fell off of the climbing equipment which was approximately 4 feet tall.	The steps that have been taken are: We sent out a communication email to all the staff (EHS and HS) around playground expectations and safety. Each staff member had to send back a confirmation that they understood and identify if they had questions which we answered immediately. We connected with all the key staff that were involved to gain an understanding of the how and why to ensure there was no misunderstanding. We met with Ramil to review additional open spots for the jungle gym that we felt are questionable even for HS and a tentative plan was discussed to close those spaces off as well. We will send a followup to get dates for the proposed work. The team will review in the upcoming site meeting around large motor expectations and safety. Zoning training for all staff will take place on Friday, May 9, 2025. The fencing company started the fence installation this morning to separate EHS and HS playground equipment.	May 9, 2025
